

## TRUTH TRACK

# Why We Can Trust The Bible

Todd Fisher, Leader

### Session 2: IMMERSE The Bible is Authentic

1. What are some ways we know the text of the Bible is credible? What does this session explain about the number of ancient copies of a text and the distance in time between the original and oldest copy? Where does the Bible score compared to other ancient texts in terms of credibility?
2. Were biblical authors biased? Can we trust the “personal touches” we see in their writings?
3. How can we trust the “transmission” of the biblical text throughout the ages? What do the Dead Sea Scrolls teach us in this regard?
4. How do the Bible’s credibility and authority relate to one another? Why are these important issues as we think about our study of the Bible and our obedience to what it says?
